

## General tutorial

<https://www.youtube.com/watch?v=eYJh5k8VQKo>

1. make sure you use correct upgrade package folder according to your theme version. How to check theme version

<https://iqitcommerce.ticksy.com/article/10034/>

2. it is mandatory to use it on **1.7.8.x** , it will not work on older version **!!!**

**IMPORTANT !!! - if you have older Prestashop version**

**please upgrade to 1.7.8.x first**
