## General notes

1. make sure you use correct upgrade package folder according to your theme version. How to check theme version
https://iqitcommerce.ticksy.com/article/10034/

2. it is mandatary to use it on 8.x , it will not work on older version **!!!**

<span style="color:red">**IMPORTANT !!! - if you have older Prestashop version**</span>

<span style="color:red">**please upgrade to 8.x first**</span>
